

UPLOAD TRAMITE UI DATAVERSE

Per le seguenti prove è stato generato un file *estratto.csv*. Cliccando sul Add Data -> New Dataset è possibile specificare dei dati in un form per poi effettuare l'upload del file in questione:

The screenshot shows the Dataverse homepage. At the top, there's a navigation bar with the Dataverse logo, 'Add Data' (with a dropdown menu showing 'New Dataset'), 'Search', 'About', 'User Guide', 'Support', and a user profile 'Davide Nocera'. Below the navigation bar, there's a 'Metrics' section showing '47,557 Downloads'. A message states: 'Datasets older than 30 days will be deleted at 5am EST on the first day of each month. To archive and publish to the Harvard repository, visit dataverse.harvard.edu. To learn about and publish to other repositories, visit The Dataverse Project at dataverse.org.' Below this, there are four featured datasets: 'Eleni Castro Dataverse', 'Tom Brady Dataverse', 'HCPDS Dataverse', and 'Dataverse with harvested datasets'.

The screenshot shows the 'Citation Metadata' form. It includes fields for 'Title' (Dataset di Test - Progetto Big Data Management), 'Author' (Name: Nocera, Davide; Affiliation: University of Salento RCR), 'Point of Contact' (Name: Nocera, Davide; Affiliation: University of Salento RCR; E-mail: davide.nocera1@studenti.unisalento.it), 'Description' (Estratto generato pseudo-casualmente per testare la pubblicazione su Dataverse per il progetto Big Data Management), 'Date' (2026-09-10), 'Subject' (Computer and Information Science), and 'Keyword' (Term: https://, Controlled Vocabulary Name: https://). There is a 'Feedback' button at the bottom right.

Caricare il file in fondo alla pagina e cliccare su Save Dataset.

The screenshot shows the file upload interface. It includes a 'Select Files to Add' button and a 'Drag and drop files here.' area. Below this, there's a list of files with columns for 'File Name', 'File Path', and 'Description'. The file 'estratto.csv' is listed with a file path starting with 'https://'. A 'Metadata Tip' at the bottom states: 'After adding the dataset, click the Edit Dataset button to add more metadata.'

Ora cliccare su Publish e Continue per rendere pubblico il Dataverse appena creato:

UPLOAD TRAMITE API

Una volta creato il dataverse, bisogna dapprima ottenere l'API Token per effettuare le chiamate API. Pertanto recandoci nel menu utente dobbiamo cliccare sulla voce API Token:

Account - Demo Dataverse

My Data Notifications Account Information API Token

Your API Token is valid for a year. Check out our [API Guide](#) for more information on using your API Token with the Dataverse APIs.

API Token for Davide Nocera has not been created.

Create Token

Ottenuto il token possiamo creare il dataset nella collezione definita nella sezione precedente. È necessario creare un file JSON, il quale costituisce il payload della chiamata POST. Il file JSON d'esempio è reperibile a: <https://github.com/IQSS/dataverse/blob/develop/scripts/search/tests/data/dataset-finch1.json>

È sufficiente, dunque, modificare i campi di interesse, quali, authorName, authorAffiliation, datasetContactEmail, ecc. Si tratta di inserire i valori inseriti nel form tramite UI.

```
davide@Air-di-Davide Dataverse % MY_TOKEN="00e49a0a-d45d-4db6-9790-e694f26bf258"
davide@Air-di-Davide Dataverse %
davide@Air-di-Davide Dataverse % curl -H "X-Dataverse-key:$MY_TOKEN" -X POST https://demo.dataverse.org/api/dataverses/testBDMProject/datasets
--data @dataset-finch1.json -H "Content-Type:application/json"
{"status":"OK","data":{"id":2706511,"persistentId":"doi:10.70122/FK2/UIUQUX"}}%
davide@Air-di-Davide Dataverse %
```

Ora possiamo caricare il file, ma attenzione, è ancora in stato di Draft.

```
davide@Air-di-Davide Dataverse % curl -H "X-Dataverse-key:$MY_TOKEN" -X POST -F "file=@estratto.csv" "https://demo.dataverse.org/api/datasets/:persistentId/add?persistentId=doi:10.70122/FK2/UIUQUX"
{"status":"OK","data":{"files":[{"description":"","label":"estratto.csv","restricted":false,"version":1,"datasetVersionId":352163,"dataFile":{"id":2706512,"persistentId":"doi:10.70122/FK2/UIUQUX/XM43WC","pidURL":"https://doi.org/10.70122/FK2/UIUQUX/XM43WC","filename":"estratto.csv","contentType":"text/csv","friendlyType":"Comma Separated Values","filesize":43705,"description":"","storageIdentifier":"s3dir://iqssqa:1a08b2fbd8e-cdc7f3f545a5","rootDataFileId":-1,"md5":"7ebd5e277b3f6f1a65e32ac82888b72f","checksum":{"type":"MD5","value":"7ebd5e277b3f6f1a65e32ac82888b72f"},"tabularData":false,"creationDate":"2026-09-10","lastUpdateTime":"2026-09-10T11:59:16Z","fileAccessRequest":false}}]}}
```

Pubblichiamolo in modo che diventi pubblico e gli venga assegnato un DOI:

```
davide@Air-di-Davide Dataverse % curl -H "X-Dataverse-key:$MY_TOKEN" -X POST "https://demo.dataverse.org/api/datasets/:persistentId/actions/:publish?persistentId=doi:10.70122/FK2/UIUQUX&type=major"
{"status":"OK","data":{"id":2706511,"identifier":"FK2/UIUQUX","persistentUrl":"https://doi.org/10.70122/FK2/UIUQUX","protocol":"doi","authority":"10.70122","separator":"/","publisher":"Demo Dataverse","storageIdentifier":"s3dir://10.70122/FK2/UIUQUX","datasetType":"dataset","locks":["finalizePublication"]}}
```
